## Overview

Money Manager is an app to track your day to day transactions and give you an overview of the financial investment. It also shows the data into an interactive chart.

## Specifications

- User can login and sign up using his email address and new password
- User can add new transactions in a new viewcontroller
- User can see his last few transactions
- User can go to settings page and update his name
- User can enable dark mode
- User can update his profile picture
- User can to privacy policy

## Future Plans For The Application

- Forget Password
- Make Pie Chart More Interactive
- Add more Sign Up options like Google, Facebook, Apple, Twitter to the sign up page
- Add transaction type to the transaction page
- Add more settings to the page
- Expand the Database
